

Powered Industrial Truck Train-the-Trainer

1 Who Should Attend . . .

This seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA)

2 Why You Need This Seminar . . .

- ▶ To reduce disabling injuries and illnesses to employees - and to ensure that every worker goes home safe and healthy every day.
- ▶ To reduce the high costs of work-related injuries. Nationally, employers spent an estimated 50.8 billion on wage payments and medical care for workers hurt on the job. (*Liberty Mutual Safety Index 2005*) This is only a portion of the total costs of work-related injuries. Indirect costs such as overtime, training and lost productivity can also burden employers.
- ▶ To enhance your company's bottom line. A strong safety and health commitment not only protects workers, it also reduces workers compensation costs, improves employee morale, and increases production and quality.

3 What You'll Learn . . .

This MIOSHA program involves a full day of safety training designed to address specific occupational safety and health hazards associated with operating powered industrial trucks. MIOSHA General Industry Safety Standard Part 21, Powered Industrial Trucks is extensively examined as well as the relevant rules contained in other MIOSHA Standards. Topics include truck safe guards and devices, safe operating procedures, employee selection, training and inspections.

Agenda

*We offer a flexible
program agenda
to emphasize the
safety topics
you want
most.*

- ▶ Part 21: Review of the Powered Industrial Truck Standard
- ▶ Top 10 Common Powered Industrial Truck Violations
- ▶ Health Hazards Associated with Operating Powered Industrial Trucks
- ▶ Hands on Demonstration of Daily Checks Required by the Standard

All meetings are accessible and barrier free. Please contact the cosponsor or CET Division, at least two weeks in advance, to request necessary accommodations.

Facilitator

Jennifer Clark-Denson has over 10 years experience in occupational safety. Prior to joining the CET Division as an occupational safety consultant, she spent time working as a General Industry Safety Officer for MIOSHA where she was responsible for inspecting a wide variety of work operations to observe and identify potential violations of MIOSHA safety standards. Her previous work experience includes positions as an Environmental Consultant and Code Compliance Officer.

Jennifer currently provides occupational safety services to Wayne, Monroe, and Lenewee counties. She has both a Bachelor's degree in Industrial and Environmental Health Management from Ferris State University, and a Masters degree in Human Resource Management from Davenport University.

Presenters: Jennifer Clark-Denson and Debra Gundry,
Occupational Safety Consultants, MIOSHA CET Division.
